Tools Used

Trello - Project Tracking

3 stars - Helpful planning in beginning, not much later

Github - Version Control

5 stars - Easy to show the code and share

Agile + pair programming

5 stars - Able to work / learn together, spot errors

SQLite - Database

2 stars - Unable to fully work with, difficult with Xcode

VVDocumenter - Auto Documentation

5 stars - Great, easy plug-in to Xcode (Open source!)

xCode - IDE & Testing

5 stars - Easy to understand and work with

Challenges?

The challenge

The solution

Lack of Mac

Pair Program!

Affected project plan by having us working together more.

How do you xCode?

Yay for Brian!

Affected project plan by having us only working on Macs.

Database Crash

Debugging

Affected project plan by having us edit the code to fit in the database.

Demo

In all of its alpha-build glory...
